#284 Let the Truth Set You Free: Amber Rae's Story of Leaving to Love

Heal Your Heartbreak

Resume

In today's episode, I'm joined by international best-selling author Amber Rae of the book Loveable, who shares her incredible story of breaking free from a nine-year sexless marriage after realizing she was living out a "good girl" narrative that kept her needs and desires suppressed. Amber and I dive into the difficult process of coming to terms with a relationship that looks good on paper but isn't fulfilling in reality, how meeting a soulmate became the catalyst for honesty and change, and the often-unspoken shame around discussing intimacy issues within relationships. We talk about rationalizing our way into staying, the courage it takes to leave, and the even deeper work of healing childhood wounds and learning to show up authentically in a new relationship. Amber also shares what it was like navigating others' judgments, processing her family history, and building a partnership based on true connection and willingness. Whether you're questioning your relationship or seeking permission to honor your own needs, this conversation is all about finding freedom and self-love on the other side of heartbreak.

Have you ever felt a quiet knowing that something in your life was off — and tried to ignore it because you feared what it might change? In this episode, we talk about what happens when that quiet knowing becomes impossible to ignore. Amber Rae shares how meeting someone unexpectedly brought a truth she had been avoiding into sharp focus—a truth that, once faced, meant her marriage and the life she'd built would have to change. She opens up about telling her then-husband, navigating the fear and guilt that followed, and the backlash that came from choosing what felt true over what felt safe. We explore how to know if it's time to stay or go, the role of self-trust in big decisions, and why liberation is always a two-way street. We also dive into breaking free from people-pleasing, setting boundaries that last, and working with emotions like guilt and anger without letting them run the show. Amber talks about reclaiming intimacy after years without it, voicing insecurities to deepen connection, and following what brings you alive in love, career, and life. If you've ever wondered what might happen if you truly listened to yourself, this conversation will give you the courage and clarity to find out.
