Fcukers — "Beatback"

Uh-oh, the Banger Police called! They've arrested the New York electronic duo Fcukers after their new song "Beatback" made too many people go way too hard on the dance floor. Reports flooding in suggest that the duo's sleazed-up rendition, which hearkens back to the 2000s glory days of The Neptunes and Timbaland, is too filthy for public consumption, and, according to the Banger Police, they must be stopped. Wait — I'm getting word that Fcukers have escaped police custody and will be bringing their explosive live shows to a city near you. Take heed (and get tickets here)! — *P. Ragusa*
